

*Complete Restaurant Solutions*

**ALDELO<sup>®</sup>**

*Path to Simplicity<sup>SM</sup>*

# Overview

*Simplicity* is the key to success in the demanding world of restaurant management and operations.

Restaurant operators are faced with complex and mission critical responsibilities such as point of sale, payment processing, inventory control, financials accountability, customer tracking, labor management, kitchen productivity and much more everyday.

In the busy quest for success, time becomes a valuable commodity among restaurant operators. The ability to simplify and streamline operations not only helps increase the bottom line, but also yields the greatly desired leisure time for family and friends.

Aldelo Systems Inc. has helped tens of thousands of restaurant operators achieve simplicity in management and streamline operations with its easy to use restaurant solutions over the last ten years.

Aldelo restaurant solutions are as easy as 1, 2 and 3! It is super simple to use and no prior computer experience is required.

Aldelo restaurant solutions are also reliable and field proven. We have more than 400 dealer organizations providing local services. There are over 40,000 installations (as of 2008) and growing. Let us help you simplify today! Visit us online at [www.aldelo.com](http://www.aldelo.com) for a fully functional trial version.
